**CONTINUED GROWTH**  
**IN THE 2008 FIRST HALF: +8%**

Synergie Group had sales of €610 million in the 2008 first half, up 8% over the equivalent prior-year period.

This strong growth was boosted by international operations that now account for 32% of total revenue.

Synergie's geographical presence and service offering was further strengthened by the integration in 2008 of Concept Staffing (United Kingdom), Interactif Conseils en Personnel (Switzerland) and Eurydice Partners (France).

Efforts have focused the development of outplacement and human resources management services that in the second quarter achieved gains in the Group overall of 54%, thus generating new sources of profit.

In light of these performances, the Group remains confident about its future prospects.
